Manufacturer of ups, inverters etc.

About Us

Power Tech UPS is a professional manufacturer of uninterruptible power supply (UPS), battery chargers, and other power supply products with ISO9000 Standards.

Powertech Services is your one stop source for batteries utilized in both consumer electronics & industrial applications. We have the capability to replace different battery models and accessories. Anywhere from Sealed Lead Acids to Lithium-ions to Nickel Metal Hydrides (NiMH). We replace Batteries, Chargers, AC Adapters for a variety of applications, such as: Laptop Computers, Cellular Phones, Camcorders, Cordless Phones, Emergency Lights, UPS systems and many others. Our product databases are updated daily to meet your needs.

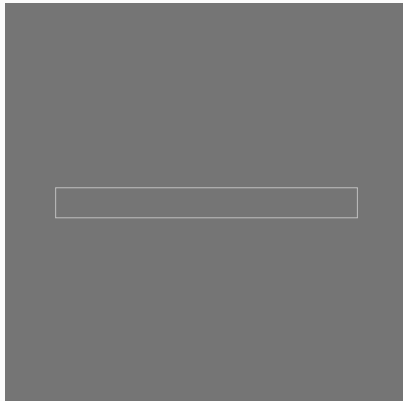

We feel that our most valuable resource is our professional and highly experienced employees, who work meticulously to produce reliable products of the highest quality. Our R&D, Engineering and Mold Making teams provide us with the capability to provide ODM and OEM services in order to best meet clients' demands.
